

DUOREST is participating in INDEX/WORKSPACE 2025!

We're excited to present our latest collection at the event.

We look forward to connecting with global partners, growing together, and creating new opportunities for success.

Hope to see you there!

MOST OUR LIFE, WE SPEND WITH CHAIRS WHEREVER WE ARE.

To avoid personal injury, headache, low back pain and fatigue with much pressure by the general chairs, an Ergonomic environment adjusted workstation can improve comfort and reduce the risk of long term injury to your health.

According to many demonstrated reports, most employees have got a positive reaction to this demonstrated care for health yields a variety of benefits.

Ergonomics programs can give many people who definitely need significant factors in their life.
