Lock System

+ DIAL SYSTEM +

This time-tested combination locking device has over a million permutations. The dial features a 'spy-proof' cover for extra protection.

+ DIGITAL LOCK SYSTEM +

This is a convenient easy to use feature. Employing the use of an 8-bit micro processor chip, the digital lock system is operated by simple touch. Your secret code can consist of 4 to 8 digits. You can program your own access code in seconds. A time delay lock-out is actived if the wrong number is entered more than 3 times.
