TREELOCATE

ARTIFICIAL TREES, PLANTS AND FLOWERS

TreeLocate have been manufacturing and supplying artificial trees, flowers and foliage for 25 years and have an established reputation for premium grade products with an incredibly realistic appearance.

Our extensive product offering has everything from small tabletop orchids, to soaring Majesty palms and we have long been the preferred supplier to many interior designers, landscapers and architects around the world.

With headquarters, main showroom and primary production facilities located in North East England we have completed projects around the globe. Our TreeLocate Foliages™ team in Dubai operate from a large warehouse and showroom, handling all MENA region requests.

If you require something a little more bespoke, we can build it for you to any specification requested. From TreeLocate's Arboretum™ museum grade trees to maintenance free green walls, our talented artisans have years of experience, know-how and all the tools in-house to do it.

The TreeLocate team ensure you receive our friendly and professional service whether you are a returning or new customer. We quote for any job big or small and are more than happy to assist and offer you advice on any project.

Bespoke Fabricated Trunk

Our fabricated trunk trees are manufactured with a strong steel core and can be up to 30m in height. We cover the frame with special materials that allow us to hand carve the trunk into the desired shape, including any features if necessary. We then cover the hand carved structure with FR bark sheeting. Our talented in-house team colour the trunk by hand using special techniques. Finally, we foliate the canopy with one of our premium FireSilk foliage choices. The result is a museum grade tree that is difficult to tell apart from the real thing.

Four Seasons Hotel - Bahrain

Custom Natural Trunk Trees

Our real trunks come from sustainable sources from either local or overseas suppliers. We begin by kiln drying the trunk to preserve the wood and remove any unwanted bugs. We add our canopy frame on top by using clever techniques that disguise any joins. Finally, we foliate with one of our premium FireSilx foliage choices. We end up with a tree preserved for life with the beautiful natural features nature produces.

Artificial Living Walls

Artificial green walls provide the same wow factor as the real thing but without the costly installation and maintenance. We stock an extensive range of lush faux foliage and colourful plants that can all be attached to our green wall frames. Our bespoke service allows you complete control over how the green wall will look. Any shape, any size and any mix of plants can be specified. We also offer off the shelf options, pre-arranged and manufactured using our FireSilx & UVsilx Foliage.

Artificial Hedging & Topiary

Our premium artificial hedging and topiary is the best way to get the classic boxwood and topiary look without the time and maintenance needed. We start with only the best materials to create a strong and stable structure that will stand up to all weather conditions. We then add our FR & UV matting of lush green boxwood or buxus. We also have a brilliant selection of timeless topiary shapes in stock ready for next day dispatch.

Artificial & Preserved Palm trees

Our hand-built artificial palm trees are renowned for their realistic appearance. Manufactured with strong steel cores, we can build to any height and if specified curve the trunks. We stock a big selection of fronds allowing us to make a wide range of species. Our exterior grade palm trees will withstand both harsh sunlight and cold, wet winters. Preserved palm fronds offer a realistic appearance and are a popular choice for interior installs.

Faux Flowers & Plants

Artificial flowers are the perfect way to add instant longterm beauty and colour to any space. No matter what the lighting conditions or your horticulture skills, enjoy stunning eye-catching window displays, seasonal floral decorations and year-round blooms in both commercial and private settings with zero maintenance costs. Our impressive selection of flowers and plants are always in stock and ready to ship.

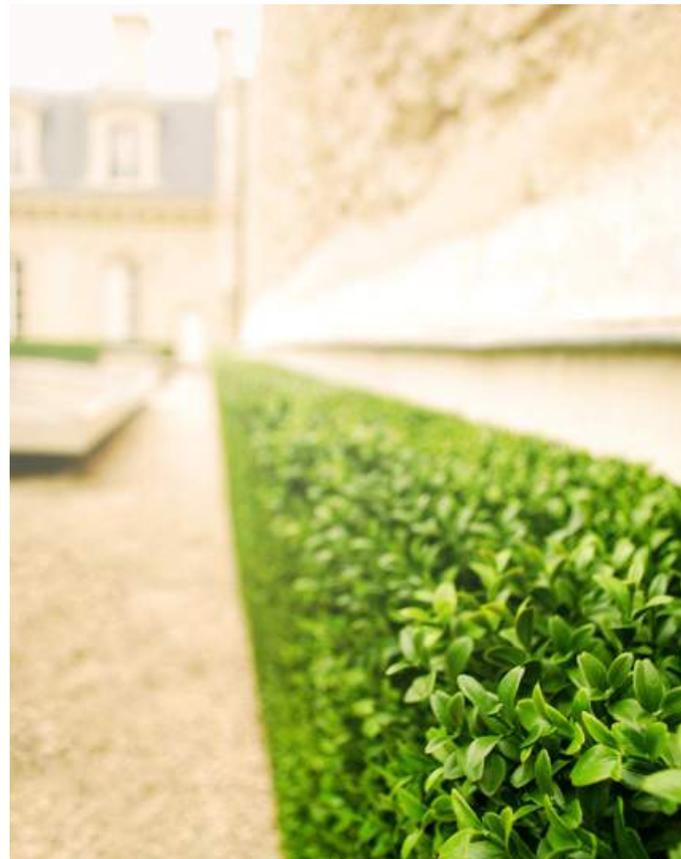

Pre-Potted Arrangements

A fabulous ever changing range of only the best flowers, plants and greenery pre-potted in one of our pots or planters. Our qualified floral designers assemble our arrangements. Traditional, opulent, contemporary, designer-led, commercial or retail, the choice is unlimited. From small potted flowers to large luxurious exterior planters, they are all manufactured and arranged in the UK.

UVsilx is our range of colourfast foliage. The products are tough, inherently fade resistant and capable of withstanding large variations in temperature while remaining incredibly realistic. We have had our UVsilx products tested to ISO 489-3 and ASTM G154-12a, and official certificates are available on request.

DIN 4102-1

Our Inherently fire retardant foliage, FireSilx, is guaranteed for life. We use fire-resistant materials and chemicals during manufacture resulting in 100% flame retardant products. We ensure no sticky, oily or greasy films as we don't use sprays or dips post-manufacture. Our impressive collection of worldwide FR tests, including our recently acquired DIN 4102 B1, are all available on request.
